

# THISARU SANDUTHILINA

Software Engineering Undergraduate

## ABOUT ME

I'm a dedicated undergraduate student studying in software engineering with a great interest in software development. My academic and project successes have been greatly attributed to my proactive approach to self-learning and being up to date with the current industry trends. I work well in teams and am renowned for my commitment to cooperation. Motivated by a dedication to perfection, I constantly approach any task with a dynamic and creative mindset, guaranteeing effective and superior results.

## EDUCATION

**Higher Diploma In software Engineering • 2023 - 2024**

National Institute of Business Management

**Diploma In software Engineering . 2022 - 2023**

National Institute of Business Management

## PROJECTS

**Library Management System | Developer | 2024**

Developed a web-based Library Management System, enabling users to register, create accounts, and purchase books online.

Focused on enhancing user experience by providing a seamless registration and purchase process. Utilized modern web development techniques to create a secure and efficient platform for managing library resources.

**Auto Service Management System | Developer | 2023**

Developed a web-based Auto Service Management System for a car service center using HTML, CSS, and PHP. Implemented both admin and user panels to manage service appointments, customer details, and service history efficiently.

Ensured a user-friendly interface and streamlined operations for both administrators and customers.

**React Frontend for Marketing Website | Developer | 2024**

Developed a responsive and user-friendly frontend for a marketing website using React. Implemented modern design principles and ensured optimal performance across devices. Collaborated with the design team to create an engaging user experience that effectively showcases products and services.
